(separate + total)

Total number of bookings created in
JAN.

13074

Total number of bookings created in
FEB.

24719

total number of bookings created in
JAN. & FEB.

37793

Which Customer has the lowest Profit Margin (%) and which one the Highest in FEB.

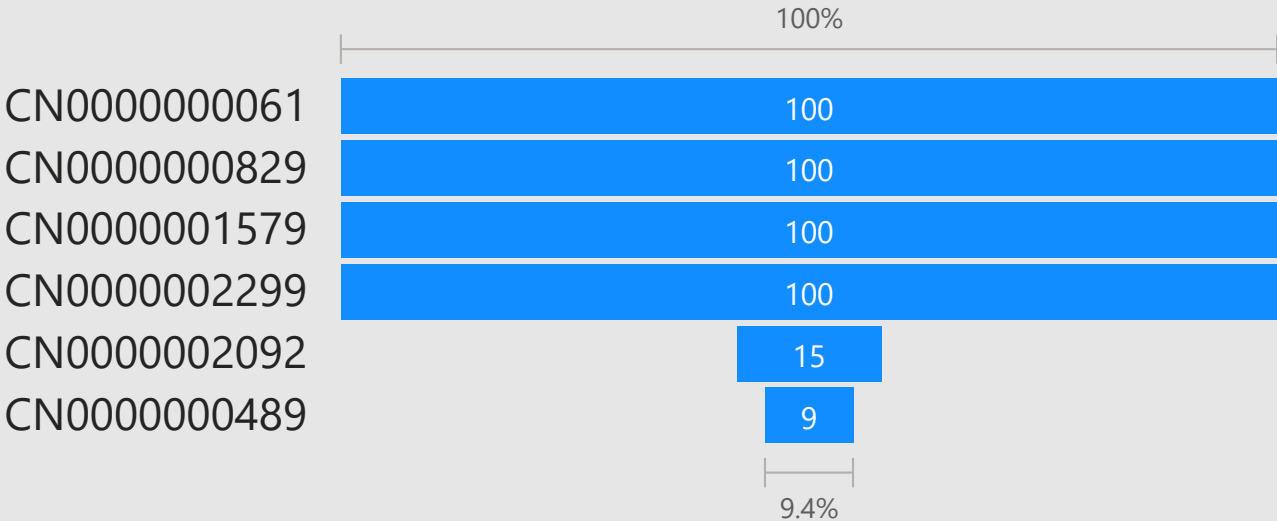

Highest customer has PROFIT MARGIN %

100.00

Lowest customer has PROFIT MARGIN %

-49.60

Highest customers have PROFIT MARGIN %

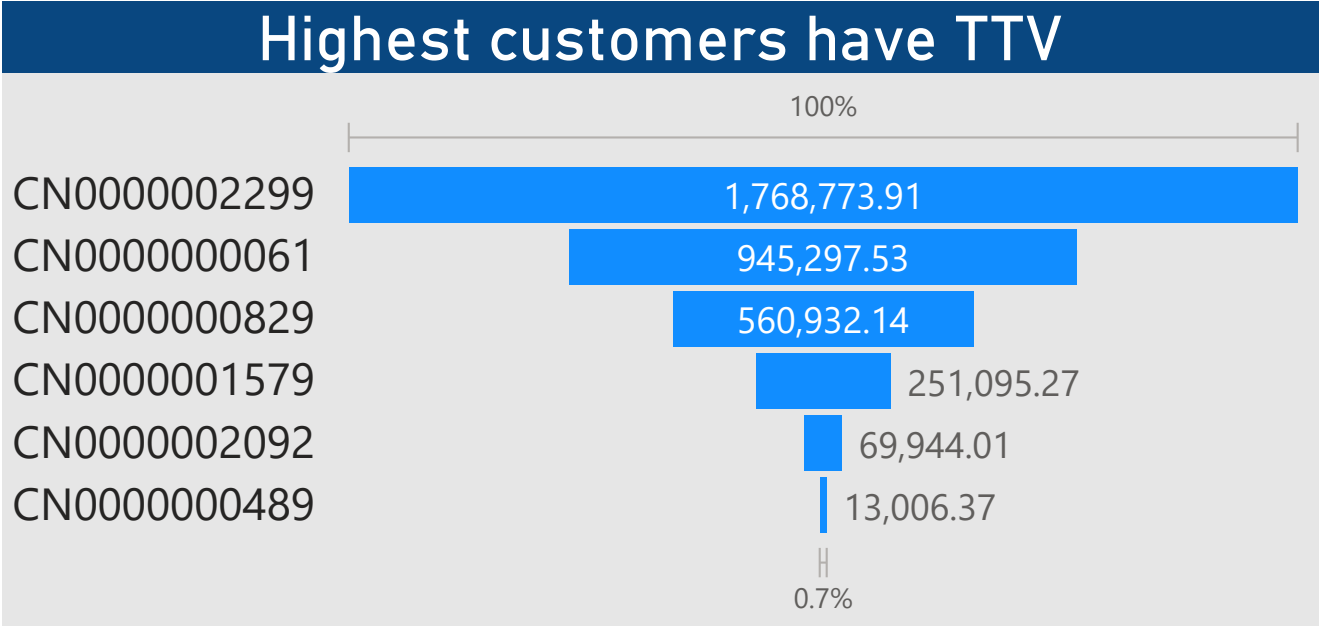

Lowest customers have PROFIT MARGIN %

CN0000000061	-49.60
CN0000002299	-41.24
CN0000000829	-40.72
CN0000000489	0.00
CN0000001579	0.00
CN0000002092	0.00

Did the Customer with the lowest Profit margin, generate the highest TTV in FEB? Share your observations on the profit?

Lowest customers have PROFIT MARGIN %	
CN0000000061	-49.60
CN00000002299	-41.24
CN00000000829	-40.72
CN00000000489	0.00
CN00000001579	0.00
CN00000002092	0.00

No the lowest customer has profit margin did not generate the highest TTV in FEB. My observations on the profit is the lowest profit margin customers tend to have the highest TTV.

"The customers that have the most revenue are the ones how have the cost the company (lost)"

Which Platform had most bookings? Highest TTV?

The DOTW Platform had most bookings

Ratio Platforms in TTV

What is the average cancelled / confirmed ratio (%) per platform?

Ratio of DOTW Platform by Booking Status

Ratio of JTI Platform by Booking Status
